Teaching and Learning Technologies
Connect the Dots

May 19, 2016  Thursday  9:00 – 10:30 am  Faculty Club
## About the Program

**The Vision**

*Provide a continually evolving set of faculty-friendly, student-focused technologies that support teaching and learning across all Harvard schools, facilitate pedagogical innovation, and contribute to educational research.*

- Running Canvas (~99% migrated!).
- Running second instance for extended education.
- Engaging in work related to iSites sunset.
# About the Program

Provide a continually evolving set of faculty-friendly, student-focused technologies that support teaching and learning across all Harvard schools, facilitate pedagogical innovation, and contribute to educational research.

## Strategic Objectives
- Provide core teaching and learning technologies to all Schools
- Support pedagogical innovation and research on learning
- Establish strong Harvard community based on actual partnerships with faculty and with academic support professionals
- Cultivate open source community around component development that complements core technologies
- Deliver high-quality program on time, on budget, in scope

## Guiding Principles
- Communicate and socialize program across the University
- Balance need to move quickly with thorough planning
- Seek early and continuous faculty input from across the Schools
- Transition program to ongoing services with sustained community and sustained vision
- Embrace fluidity
- Running Canvas (~99% migrated!).
- Running second instance for extended education. (support)
- Engaging in work related to iSites sunset.
- Embrace fluidity
- Full-time staff focus is the rule; divided time is the exception

## Key Performance Indicators
- University migration from previous platform(s) to core technologies
- Usable data from teaching and learning assessment available for research
- Meaningful engagement with faculty / teaching teams and with academic support professionals around needs
- Harvard-specific technology enhancements and applications generated by open source community
- Program delivered on time and on budget

- **Engaging with Schools at multiple levels.**
- **Hosting May Canvas Governance Group meeting.**
- **Recently hosted May Coffee & Canvas.**
- **Participating in HILT’s TLC meetings and events.**
About the Program

The Vision

Provide a continually evolving set of faculty-friendly, student-focused technologies that support teaching and learning across all Harvard schools, facilitate pedagogical innovation, and contribute to educational research.

Strategic Objectives

• Provide core teaching and learning technologies to all Schools
• Support pedagogical innovation and research on learning
• Establish strong Harvard community based on actual partnerships with faculty and with academic support professionals
• Cultivate open source community around component development that complements core technologies
• Deliver high-quality program on time, on budget, in scope

Guiding Principles

• Communicate and socialize program across the University
• Balance need to move quickly with thoughtful planning
• Seek early and continuous faculty input from across the Schools
• Transition program to ongoing services with sustained community and sustained vision
• Embrace fluidity

Key Performance Indicators

• University migration from previous platform(s) to core technologies
• Usable data from teaching and learning assessments available for research
• Meaningful engagement with faculty / teaching teams and with academic support professionals around needs
• Harvard-specific technology enhancements and applications generated by open-source community
• Program delivered on time and on budget

• Hosting June academic developer meeting.
• Consulting with Schools on LTI development.
• 31 LTI tools have been built by 7 schools + 4 HUIT units.
About the Program

The Vision

Provide a continually evolving set of faculty-friendly, student-focused technologies that support teaching and learning across all Harvard schools, facilitate pedagogical innovation, and contribute to educational research.

Strategic Objectives

• Provide core teaching and learning technologies to all Schools

• Support pedagogical innovation and research on learning

• Establish strong Harvard community based on actual partnerships with faculty and with academic support professionals

• Cultivate open source community around component development that complements core technologies

• Deliver high-quality program on time, on budget, in scope

Guiding Principles

• Communicate and socialize program across the University

• Balance need to move quickly with thoughtful planning

• Seek early and continuous faculty input from across the Schools

• Transition program to ongoing services with sustained community and sustained vision

• Embrace fluidity

• Full-time staff focus is the rule; divided time is the exception

Key Performance Indicators

• University migration from previous platform(s) to core technologies

• Usable data from teaching and learning activities available for research

• Meaningful engagement with faculty / teaching teams and with academic support professionals around needs

• Harvard-specific technology enhancements and applications generated by open source community

• Program delivered on time and on budget

• Did what we said we were going to do ...

• In the time we gave ourselves ...

• Within the budget we had to work with.

Did what we said we were going to do …
In the time we gave ourselves …
Within the budget we had to work with.
About the Program

The Vision

Provide a continually evolving set of faculty-friendly, student-focused technologies that support teaching and learning across all Harvard schools, facilitate pedagogical innovation, and contribute to educational research.

Strategic Objectives

- Provide core teaching and learning technologies to all Schools
- Support pedagogical innovation and research on learning
- Establish strong Harvard community based on actual partnerships with faculty and with academic support professionals
- Cultivate open source community around component development that complements core technologies
- Deliver high-quality program on time, on budget, in scope

Guiding Principles

- Communicate and socialize program across the University
- Balance need to move quickly with thoughtful planning
- Seek early and continuous faculty input from across the Schools
- Transition program to ongoing services with sustained community and sustained vision
- Embrace fluidity
- Full-time staff focus is the rule; divided time is the exception

Key Performance Indicators

- University migration from previous platform(s) to core technologies
- Usable data from teaching and learning activities available for research
- Meaningful engagement with faculty / teaching teams and with academic support professionals on our needs
- Harvard-specific technology enhancements and applications generated by open source community
- Program delivered on time and on budget
Thank you!
